AGENDA TITLE:	Professional Service Contract for Design of a Water Softening Plant
COUNCIL GOAL AREA:	Infrastructure (Water, Wastewater, Streets, Grounds)
BUDGETED AMOUNT:	\$2,370,000.00
ACCOUNT CODE:	322.810.67122
RECOMMENDATION:	Approve
CITY MANAGER/DEPT HEAD APPROVAL:	<i>DR</i> 11.30.22 MBD 11/28/22

DISCUSSION:

The 2022 Capital Improvement budget includes \$2,370,000 for the design and engineering of a water softening process to be incorporated into the City's existing water treatment facility. While it is rare to get a water quality complaint, many customers have shared that they do not care for the natural mineral hardness of the City's water supply and would like the central plant to offer softened water. The City has previously retained the services of Strand Associates, Inc. (Strand) to perform a water softening alternatives analysis for the City's water system. The analysis considered many factors including current and projected water use, water quality parameters, emerging contaminants including PFAS compounds (aka *Forever Chemicals*), water plant processes that may accommodate softening, waste material disposal and impact on Four Mile Creek and other resources, and risk factors associated with corrosion control and compliance with federal lead and copper rules for water systems.

The City of Oxford
(513) 524-5200
15 S. College Ave.
Oxford, OH 45056

Oxford's current natural water hardness is 350 mg/L. Other municipalities in Butler County all soften their water supplies to the range of 120 – 150 mg/L. This is accomplished successfully with several technologies including membrane softening, lime softening, ion exchange, and fluidized bed reactor. After careful evaluation of these four methods, it was determined that membrane softening is best suited for the Oxford water system for reasons including the ability to remove contaminants of emerging concern and the ability to discharge membrane wastewater directly to the environment without additional treatment. Strand also evaluated the possibility of purchasing wholesale water from other sources, and transporting water back to the City's distribution system. After analysis, it was determined that the City should build its own softening plant and maintain & expand local raw water sources.

The City advertised a Request for Proposals for the design and engineering of a membrane softening process to be incorporated into the City's water treatment plant. Two firms were interviewed and evaluated to provide engineering services to the City including Poggemeyer Design Group and Strand Associates. While both firms offered very professional proposals, Staff including the service director, deputy service director, city engineer, and water treatment plant manager concur that the best proposal was provided by Strand Associates. Strand's proposal breaks the project down into seven main tasks including the following:

- Select membrane system manufacturer
- Pilot Plant testing and analysis
- Engineering analysis including corrosion control, permitting, and Operations
- Alternatives evaluation based on results of testing
- Design documents – 30 / 60 / 90 % drawing submittals and bidding specifications
- Bidding and Award
- Construction Services (if authorized by City)

The City of Oxford
(513) 524-5200
15 S. College Ave.
Oxford, OH 45056

Fees for professional services have been negotiated with Strand for the tasks involved in the project for a total (including “if-authorized”) of \$1,670,000. See Appendix “A”, pages 7-8, for detailed breakdown of fees. Staff compared these fees to other Ohio comparable projects including the city of Marietta and the city of Miamisburg and find the fees to be reasonable for the services provided and in line with comparisons of other water utilities. It should also be noted that there will be additional permitting expenses beyond those in this contract including the construction, operation, and analysis of a pilot plant to assess membrane efficiencies and corrosion control required by federal regulation. These costs will likely range between \$80,000 and \$100,000 and will be outside of this contract with Strand Associates. There will also be permitting fees payable to the Ohio Environmental Protection Agency for plan review of the softening plant and permitting.

This will be an expensive project for the City’s water utility with expenses of ~ \$1.8M for design & permitting plus an anticipated construction cost of \$17.9M. Current inflation rates and wild fluctuations in bidding by contractors will give a certain level of uncertainty over our project cost estimations for the next few years. The City has applied to the Ohio EPA’s Drinking Water Assistance Fund (DWAF) to assist in paying for design costs for the project. While the City was not awarded funds for 2022, the City is still a strong candidate for funding, including principal forgiveness, for project year 2023 funding through the program. The City will continue to explore and apply for federal infrastructure funds to help support this project.

While the design contract will not have a significant impact on rates for the utility, the construction contract will have an impact, with both capital costs and on-going operational expenses. Prior to authorization to proceed with plant construction, the City should complete a rate study to verify expenses and the utility’s ability to support the additional debt service and operational costs.

It is Staff's recommendation that the City Council authorize the City Manager to enter into an agreement with Strand Associates, Inc. for the design and engineering of water softening improvements for the City's water treatment plant at a cost of \$1,670,000. Staff is also requesting a 5% contingency in the amount of \$83,500; therefore the total not to exceed for this contract shall be **\$1,753,500.00**.

COUNCIL MEETING DATE:	December 6, 2022
AGENDA TITLE:	Moratorium on Tobacco and Vape Shops
COUNCIL GOAL AREA:	Health & Equity
BUDGETED AMOUNT:	
ACCOUNT CODE:	
RECOMMENDATION:	Approval
CITY MANAGER/DEPT HEAD APPROVAL:	<i>DRC</i> 11.30.22

DISCUSSION:

Summary:

The Coalition for a Healthy Community has expressed concern about the high number of Tobacco and Vape shops in the Oxford Community and the number of youth who have been able to obtain nicotine products.

The CDC has stated concern over youth using vape and e-cigarettes. The CDC states, nicotine is highly addictive and can harm adolescent brain development, which continues into the early to mid-20s. E-cigarettes can contain other harmful substances besides nicotine. Young people who use e-cigarettes may be more likely to smoke cigarettes in the future."

The Coalition has been working with the Butler County General Health District on possible legislation for Oxford to research and implement that will increase enforcement and possibly restrict the number of shops of this nature. Because of nicotine's negative public health impacts, we recommend this moratorium to prohibit any new Tobacco and Vape shops for 12 months. This pause will allow the City and the Butler County General Health District the time needed to discuss the details of the proposed public health legislation.

RESOLUTION NO.

A RESOLUTION PLACING A MORATORIUM, NOT TO EXCEED TWELVE (12) MONTHS, ON VAPE AND SMOKE ESTABLISHMENTS OR SHOPS WITHIN THE CITY OF OXFORD, OHIO.

WHEREAS, pursuant to the Ohio Constitution and the Ohio Revised Code, municipalities have the power to enact planning and zoning laws that are for the health, safety, welfare, comfort, and peace of the citizens of the municipality, including restricting areas used for business and trade; and

WHEREAS, the City of Oxford (“City”) has observed a sharp increase in the volume of new businesses that sell smoke-related products such as electronic smoking devices and vapor products that contain nicotine (herein after referred to as “e-cigarettes”) which has caused great concern among City residents and public health officials; and

WHEREAS, according to the Butler County Health Department, e-cigarettes are a public health and safety concern because e-cigarettes are harmful to the lungs and are the most commonly used tobacco product among middle and high school students who are especially vulnerable to nicotine addiction; and

WHEREAS, pursuant to Ohio Revised Code 2927.02(B)(1), it is illegal to give, sell, or otherwise distribute cigarettes, other tobacco products, or alternative nicotine products like e-cigarette and/or vaping products to any person under the age of twenty-one (21); and

WHEREAS, the City has a large population of young adults under the age of twenty-one (21) due to the City’s proximity to Miami University; and

WHEREAS, this Council desires to issue a moratorium for a period of time, not to exceed twelve (12) months from the date of passage of this Resolution, while it undertakes a comprehensive review of the Ordinances of the City, including zoning, building, licensure, and other business regulations relating to new vape and smoke establishments or shops within the City; and

WHEREAS, this Council will be able to coordinate with the Butler County Public Health Department and enact reasonable regulations to protect health, safety, welfare, peace, and comfort of the citizens of the City more effectively if a moratorium is in place.

WHEREAS, the City Staff shall make periodic reports to Council regarding the status of the coordination of regulations with the Butler County Public Health Department.

WHEREAS, the Moratorium will expire automatically after twelve (12) months unless extended for good cause by Council.

BE IT RESOLVED BY THE COUNCIL OF THE CITY OF OXFORD, BUTLER COUNTY, STATE OF OHIO, THAT:

SECTION 1: Oxford City Council hereby approves the moratorium, not to exceed twelve (12) months.

SECTION 2: No new vape and smoke establishments or shops shall open during this time period within the City of Oxford.

SECTION 4: This Resolution is hereby declared to be a measure immediately necessary for the preservation of the public peace, health, safety, and welfare of the City of Oxford and shall be in full force and effect immediately upon adoption.

Summary:

The City of Oxford conducted a housing needs assessment in 2020, finding that Oxford has a critical need for affordable housing. The Oxford City Council has adopted Affordable Housing as a top goal since 2020.

Staff research into successful affordable housing programs in other communities has found that many programs begin by using City-owned land or the City working to acquire new land to be used for housing. The City's land ownership allows the City to attract developers to build housing and control the type of housing.

Using the American Rescue Plan Funds to purchase land for affordable housing is an allowable expense under the Final Rule.

The City intends to work with a nonprofit housing partner to manage and develop this land for affordable housing in the future.

- I. HAPC-2022-04, 10 North Beech Street, Certificate of Appropriateness, alteration to existing building alley façade, Robert Humphrey, Architect/Agent.

The Commission provided feedback to the applicant on the updated design. The updated design called for one-story masonry addition, with a sloped roof. This was a significant change from the initial design which called for a retractable roof system and open patio. Instead of a sloped roof, the HAPC preferred a flat-roofed design with arched openings to match the front facade. The architect planned to revise the drawings to a flat roof with arched openings.

COUNCIL MEETING DATE:	12.6.22
AGENDA TITLE:	A Resolution authorizing the City Manager to enter into an agreement with Oxford Township authorizing the City of Oxford to provide Fire & EMS services to Oxford Township.
COUNCIL GOAL AREA:	Public Safety
BUDGETED AMOUNT:	
ACCOUNT CODE:	
RECOMMENDATION:	Approval
CITY MANAGER/DEPT HEAD APPROVAL:	<i>DRE</i> 11.30.22

DISCUSSION:

The Fire Chief and I met with Oxford Township Trustee President Gary Salmon to discuss a new agreement for the provision of Fire and EMS services in the unincorporated portion of the Township. The current three year agreement included an annual payment of \$126,000 and expires on December 31, 2022. A proposed two year agreement has been submitted to the Township Trustees. The proposed amount is \$158,000 per year paid in two installments of \$79,000 each. This figure is based on Fire/EMS expenditures minus EMS billing revenue times Oxford Township's percentage of total calls for Fire/EMS service (6.74%). The trustees have agreed to this annual amount at their November 16th meeting. A resolution authorizing the City Manager to sign the agreement with Oxford Township is on the Council agenda for the December 6th meeting.

Oxford has been fortunate in having the McCullough and Hyde bequests with which to establish a community hospital and with which to meet continued deficits. It is also a credit to the foresight of the board members that adjacent properties have been acquired to implement the hospital's future growth.

But if McCullough-Hyde Memorial Hospital is to remain a full-scale, independent facility, if major new construction is to be scheduled, or even if extensive replacement of equipment—some of it already ten years old—is to take place, renewed community interest and continuing financial support will be needed in the years ahead.

Statement to City Council, December 6, 2022

- **Ann Fuehrer, Dana Drive in Southern Knolls**
- **I timed this statement but I will stop mid-sentence if you give me the “cut” signal, Mayor Snavely. I thank you for your equal opportunity practice of everyone getting 5 minutes for public comment**
- **I ‘m here to congratulate and thank members of Council, as part of my squeaky wheelness, and to issue an invitation.**
- **I’m the Facilitator for Oxford Citizens for Peace and Justice. On Saturday night, OCPJ recognized Vice-Mayor Raghu with one of our annual Peace and Justice Awards. A second award went to Shana Rosenberg, who is a member of two of the City’s Commissions. Although they each make unique contributions, both Chantel and Shana work within the structure of City government AND outside of that structure to address basic survival needs—food, clothing and shelter—of vulnerable, really all, members of the community, through sustainable practices that keep food waste or fabrics out of landfills. They work seemingly tirelessly, contributing their time, energy and homes to redistributing resources, to working in solidarity with those living in poverty.**
- **This is the inclusive, human rights-based leadership that OCPJ advocates. I empathize with some of the challenges you have in your roles as members of Council. I know what it’s like to be a representative elected to work “collaboratively” with administrative staff to allocate resources to serve constituents. For 6 of the 39 years I was a faculty member at Miami I was elected to University Senate. I did advocate views of members of my department. I also knew that sometimes, especially when confronting the need for change in policies to address social injustices, it is important to work on an ad hoc basis outside of the structure of formal governance. For example, I worked many hours with three other faculty, including a straight ally, on an ad hoc task force to push President Garland to promote the need for domestic partner**

benefits to Miami's Board of Trustees. Finally, in 2004, my family was able to have the same benefits as did my married straight colleagues.

- OCPJ will invite members of Council to collaborate with us to, this spring, do some Civics 101 education, so that the public can speak here in 5-minute bursts every two weeks. But also so we can help to expand programs like the Living Room Conversations that Councillors Franklin and French have begun, and to amplify the voices of those who serve on Boards and Commissions. Ultimately, though, without ordinances, Council and the public are only in advisory roles, or in witnessing roles when we observe injustices. The access to information and resources that you provide Councillor Bracken is essential. Councillor Ellerbee, your statements of principles that guide your votes help me examine the wisdom of my disagreements with you. And Councillor Prytherch, your clarification of the processes of retreats and work sessions to set goals and priorities increases transparency.
- But it is not enough. There are many injustices, and elephants in the room. I have attended and spoken at meetings of at least 4 different commissions. My comment at the last meeting of the Housing Advisory Commission was called out by the Chair, a valued colleague with whom I collaborated when I was Director of TOPSS. He saw the reaction on my face when the agenda item was whether the Commission should meet less frequently. He asked my opinion. I made a simple comment, "It seems to me that if housing for all is a high priority for the City, the Housing Advisory Commission should meet on a regular basis." Of course, I know that if the role of the Commission is limited to advising when staff and Council make decisions, infrequent meetings may be fine. And if it is difficult to find a time when everyone can meet and one of the absent members is Director of a social service agency who is overburdened by trying to meet survival needs of underserved residents and they, responsibly, give priority to their job, it is tempting to say, "Let's meet every other month." I'll continue to be a squeaky wheel.
